CFOSA PRESIDENT

Đuro Marinović, dr. med.

Dear all

On behalf of Croatian Federation of Sea Anglers and myself personally, it is my pleasure and honor to welcome all of you competitors of the World Spearfishing Cup for Clubs that will take place in our beautiful country.

After two years of living in a „new normal“ conditions caused by the Covid – 19 pandemic and after many of our fellow human beings have had left us, this competition will finally take place in normal conditions and with all „normal“ events around it.

Croatia has always been a great organizer of the sport events and competitions. So has been Supetar too, hosting many national championships and U-21 Boat Angling Championship in 2015. I am convinced that this championship too will be organized on a high level.

Our Adriatic sea is beautiful with lots of fish but it is also very unpredictable, therefore I wish all of you a pleasant stay in Supetar, great catches and fun with a note that underwater spearfishing is an extreme sport.

And at the end, it is my personal wish that sport's spirit and friendship win this competition.

Once again, all the best wishes to CMAS, hosting club and all the participants of this competition.

KŠR ARBUN PRESIDENT

Ivan Cvitanić, B.Sc.

Dear friends,

it is of our great honor and privilege to be elected as a hosting club for the 2nd CMAS World Spearfishing Cup for Clubs.

In the past seven years Supetar's KŠR „Arbun“ has hosted Croatian National Championships in spearfishing, shore angling and big game fishing along with a World U21 Boat Angling Championship in 2015.

This all proves that we do a great job when it comes to sport event organization.

Through the history of our club founded in 1960, spearfishing has been our primary sport discipline and we take a special care about it and our spear fishers.

Therefore, we are so happy that we can host and organize this event in May 2023 and I assure all of you that it will be a great sport event.

I invite you all in Supetar, island of Brač and Croatia to be a part of the 2nd CMAS World Spearfishing Cup for Clubs, to enjoy our beautiful island, Adriatic Sea and the beauty of the spearfishing competition.

On behalf of all members of our club and the management, I wish you all the best in the upcoming times and look forward welcoming you all in Supetar, in May 2023.

2. SUPETAR / ISLAND OF BRAČ / CROATIA

With some more than 4 000 inhabitants, Supetar is the largest town on the island of Brač. It is a vivid heart of the island located in its northern part and an excellent starting point for exploring this beautiful, diverse and very interesting island.

Supetar is island's administrative, cultural, economic and touristic center that has a great, direct and frequent ferry boat connection with Split, Croatia's second largest city.

Once Supetar was port leading to Nerežišća – historical island's capital in the inland. Name Supetar (after St. Peter, protector of the city) was mentioned for the first time in 1423 A.D. whilst it got its current urban features during the 17th and 18th century when it got inhabited by Donji Humac inhabitants.

In 1997 Supetar was granted a City status. The Supetar town area also covers nearby villages of Mirca, Splitska and Škrip.

Supetar abounds with points of historical heritage which is not surprising as its history goes back to the period of Roman emperors. The aforementioned is proved by remnants from 6th century: Early Christian mosaic close to the Parish church and villa rusticate at the St Nicholas promontory, close to the town beach Banj.

More about Supetar and how to reach it: www.supetar.hr.

6. THE WORLD CUP

The Spearfishing World Cup for Clubs will take place in two consecutive days of competition of five (5) hours each one, in the Brač and /or Šolta archipelago (Reserve zone).

This geographic area will be divided in three (3) areas named “Competition areas”, two (2) primary areas where competition will take place and one (1) reserve area in case the weather conditions make it unsafe for people and boats to operate in the primary areas.

These areas will be named Zone A, Zone B and Reserve zone.

The CMAS Technical Delegate will confirm the order of the competition areas no later than one hour before the start of the first competition day.

The CMAS Technical Delegate can, if he considers it necessary, reduce the time of the competition day compared to the initially scheduled time, during the competition day or at the start of the competition day, for safety reasons, if weather conditions are severe.

Competition in one day will be valid if the time passed exceeds the two thirds of what is the scheduled for the competition in the day.

The World Cup will be valid when at least one valid competition day is completed. The total suspension of a competition day is strictly a decision of CMAS technical delegate.

Teams can only use the boat provided by the Organization Committee or own boats accepted on registration that will be considered as the official boats. Another means of transportation is forbidden during the time of competition.

Each team will be provided with an official boat. Taking in account that boats could be of diverse size and power, in this event:

- Boats available, excluding teams with own boat accepted by organizer, will be distributed by draw
- Captains are allowed to be in one of the boats assigned to own teams, and they will be free to switch from one boat to another during the day of competition.
- The boatmen act as commissioners.

- In case of breakdown, the boat will be replaced if possible. Complaints about the substitute boat will not be accepted.
- Clubs, which bring their own boats, must attach a written notice when registering.
- The boats engines must not exceed 150HP. Commissioners will be assigned to these boats by the organization.
- The CMAS Technical Delegate will select the commissioners for the Croatian participants among other nations' available commissioners.
- Each official boat will be assigned a reference number the same as the Team. It will be a reference number when using the mobile phone during the competition.
- Competitors are not allowed to change their boat.

The official visit period without fishing and taking guns starts on April 18th.

Each competitor is obliged to have a Croatian fishing license during the competition. The price of the 3-day fishing license is calculated in the registration fee. Fishing licenses for all competitors will be issued according to the final entry forms and will be distributed during the registration on the May 4th.

- Due to the possible COVID-19 pandemic, changes of the above rules are possible.

IT IS FORBIDDEN:

- To access the competition areas the day before the beginning of competition to all the competitors, members of delegation, commissaries, captains and other persons related to said persons.
- To visit any competition area during official visit period using scuba diving apparel other than apnea, or using scooters or any underwater mean of propulsion.

PLEASE NOTE:

During the competition, the Commissioners are responsible for participants to comply with the Croatian Law. Every fish will be checked with a device Torimeter operated by a professional to ensure all fish are caught during the competition and fresh.

7. ALLOWED APPAREL

The use of an official buoy provided by the organizer committee will be obligatory for all competitors being in the sea during the time of the competition days.

In the event of losing the official buoy, the boat commissaries will request the organization for a spare official buoy, during that time the athlete must use another own buoy of similar dimensions.

ONLY THE USE OF THE FOLLOWING EQUIPMENT IS ALLOWED:

1. One boat per each team.
2. Spear guns, loaded by the athlete without help of other competitor or support of people on boat.
3. Diving fins
4. Mask
5. Snorkel
6. Fast release weights belt
7. Extra ballast weight that is always retrieved from sea bottom.
8. Gloves.
9. Buoy fish holder.
10. Spare arrows and hooks.
11. Underwater watch and computer.
12. Echo sounder.
13. Isothermal wetsuit.
14. Diving knife.
15. It is recommended to have an ice box to keep the catches fresh
16. Communication means (mobile phones, VHF transceivers, walky-talkies,...).
17. Global Position System (GPS).
18. Portable scale.
19. Flashlight / underwater torch.
20. Safety jacket* gadget approved by CMAS

PLEASE NOTE: The volunteer Athletes can wear the safety jacket in competition but once used it is synonym of disqualification on the day for the team.

IT IS NOT ALLOWED TO:

- Carry fish in the belt or any other place than the buoy or the boat.
- Be dragged by boat in the water against the current.
- Have loaded spear gun out of water.
- Have loaded spear gun hung on buoys.
- Use of compressed air for breathing from any kind of device or container.

COMPULSORY EQUIPMENTS:

Local Sea Authority requires use of following safety articles:

- Homologate safety float (buoy) or a spearfishing board.

- Red flag with a white line signaling underwater activity (Croatian Law).

8. METHODS OF CONTROL

Each team will be provided with a numbered official buoy at the moment of the inscription, the use of that buoy is **COMPULSORY** during the days of the competition, and athletes must not go further than 25 meters from their official buoy.

The organizer committee will give numbered bags or numbered wire to every team to keep the fish of the catch that will be sealed by the commissaries and delivered at the designated place for the collection of the catches at the end of each competition day, or at the time when a team decides to abandon the competition.

In this event it is compulsory that the team communicates this intention to the CMAS Technical Delegate or the Director of competition before leaving the competition area.

A number and the correspondent initials of the country and the club, with the number of the team and the flag of the country, according to CMAS General Rules, will identify every boat with a team.

9. THE COMPETITION

The Director of Competition will lead the journey of boats and competitors to the gathering point determined during the technical meeting of captains, in the middle of the zone of competition.

The boat of the Director of Competition will leave the port of departure, followed by the boats of the athletes until arriving at the gathering point, where he will indicate the start of the competition with visual and/or sound signals.

All boats must follow the Competition Director boat to and from the competition area.

At the end of the competition, the Director of Competition will signal the end in the same mode, both sound and visual signals. Boats of competitors must arrive to the precise gathering check point 15 minutes after the end of the competition time.

The CMAS Technical Delegate can set a different margin if sea conditions require it.

PENALIZATION FOR THE DELAY ON THE MARGINS OF TIME:

– Up to 5 minutes	2.000 points
– Every additional minute or fraction	500 points
– Over 15 minutes	Disqualification

The movement of the boats during the competition all the zone long must be keeping prudent distances with the other athletes and their buoys and at slow speed and respecting the distance in the radius of 25 meters of the buoy signaling one athlete.

SPEARFISHING BEHAVIOUR OF THE TEAM

TEAMS COMPOSED BY TWO ATHLETES:

When spearfishing the two athletes are allowed to dive together. They must not go further than 50 m from each other and further than 25 m from the buoy.

If one athlete leaves the water to get on the boat, the second one can continue spearfishing.

If one athlete must quit the competition for any reason, the second can't continue the competition alone and must quit the competition with his team mate.

TEAMS COMPOSED BY THREE ATHLETES:

The third athlete must stay on the boat. He can replace any one of his teammates at any moment of the competition but only once the latter gets on the boat. It is not permitted to be three athletes in water at the same time.

10. COMMISSARIES AND JUDGES

All not identified situations in the present rules must be solved according to the international Spear fishing rules of CMAS.

For events not identified in the Particular or the General Rules, a decision will be taken and resolved by the International Jury/CMAS Technical Delegate for the World Cup.

The competition Committee may be consulted by the CMAS Technical Delegate for expert advice at any moment, but the CMAS Technical Delegate will take his own decisions.

Commissaries of boats must fulfil the legal requirements and follow the orders of the CMAS Technical Delegate.

In the event of a competitor becoming tired or other circumstances obliging the athlete to retire from the competition, he can only leave the competition after notifying the commissary in own boat or in the medical boat (if necessary) and the latter has to communicate that to the CMAS Technical Delegate or the Director of competition.

The team composed by **two** athletes must **end** the competition if one of them must be evacuated from his boat for any reason.

The team composed by **three** athletes can resume the competition after landing the leaving athlete on the quay or after transferring him to the medical boat but the team must communicate that to the CMAS Technical Delegate or the Director of competition.

During the competition, the official Main Boat will have flags in colors that mean:

RED: Emergence/Urgency

WHITE: End of competition.

GREEN: Request for mechanical help.

After White flag and sound signal, all competitors must stop their fishing activity and go on board the boat. If any competitor has to stay in water, he will stop the fishing activity and remove his mask of his face.

11. SCORING AND CLASSIFICATION

The calculation will be in two steps:

PHASE 1: Traditional Points (P.T.)

The amount of points obtained by the captures in groups, calculated as follows: one point per gram of each valid catch plus the established bonuses.

The max valid weight for the scoring of the catches of Group 1 and Group 3 will be 12500 g. Catches that weigh more than 12500 gr will score this maximum value plus the bonus, although total real weight will be considered in the event of the existence of an award for the Biggest Catch.

BONUSES:

Each valid catch from Group 1 will have a 400 points bonus.

Each different species from Group 1 will be awarded a 400 points bonus. Each catch from Group 3 will be awarded a 400 points bonus.

Additional bonus of 800 points will be awarded when the full quote of catches of Group 1 is completed.

PHASE 2: Percent Punctuation (P.P. %)

The total punctuation of each team on each day will be a percentage taking as reference the punctuation of the team with the highest score in that day of the competition.

The team who obtains the best punctuation will be credited with the 100% and the points of the rest of the teams will be calculated as a pro rata percentage of that punctuation. The percent values will be rounded up to the third decimal.

FORMULA FOR CALCULATION OF THE TEAM POINTS:

$\text{Punctuation of each team} \times 100 / \text{Punctuation of the first classified of the day.}$

The classification will be calculated in points, following the precedent rules. The catch of any team who presents his catches in a bag other than the official one provided by the organization, with or without water, will immediately be removed from bag and water and be weighted last.

PENALTIES:

- Any catch not reaching two thirds of the minimum weight of their category, will generate a penalty (negative points), equal to the minimum weight of the category/group.

- In the event of one fish exceeding the established limit of pieces of the particular species, it will be ignored in weighing and the two heavier catches of the species will be removed.

- In the event of the established limit of pieces in **Group 3** having been exceeded, the penalty will be **disqualification from the World Cup**.

If a competitor exceeds by two or more catches the max number of catches of a species, all the catches of the species will be disqualified for this day of competition.

Any catch that is not in the boat in the time when the fishing ends, is not a valid catch.

In the event of draw, the team with higher number of catches will win. If the number of catches is equal, the team with the biggest catch will win.

13. REGULATORY FRAMEWORK AND SANCTIONS

During the World Cup, the clubs and their members must follow these Particular Rules and the CMAS Spear Fishing General Rules.

In particular: The competitors must know and respect Spear fishing CMAS rules, as well as these Particular Rules and local Croatian laws.

The CMAS Technical delegate, Director of Competition and commissaries, will be in charge to enforce respect of the rules. After the boat commissaries' or the competition director's communication to CMAS Technical Delegate of any wrongful behavior, the CMAS Technical delegate would decide a WARNING or a DISQUALIFICATION (for the day OR the whole World Cup).

DISCIPLINE

Behaviors punishable with a WARNING:
